It is with pride that we present our entry in the 2004 Parade of Homes. Affordable, yet providing that custom feel has long been the hallmark of the Camp Corporation. This home provides a growing family with all the amenities normally found in homes with far greater floor space. We are particularly proud of the master suite, with its twin walk-in closets and oversized bath. The family room allows the entire family to “kick back,” enjoying the cozy fireplace on those cold Tri-Cities nights. The living room and formal dining room allow for entertaining guests without disrupting the family setting. Ask our on-site representative about customizing one of our many plans for your family.
