Greg Senger

The Senger family has been building in America since the late 1800s. As a young boy, Greg spent many days at his father's construction job sites. At the age of 15, he began working for his dad, Gene, a contractor in the Tri-Cities. Following in his family's footsteps, Greg started Greg Senger Construction, in 1986. He established his company by working remodel

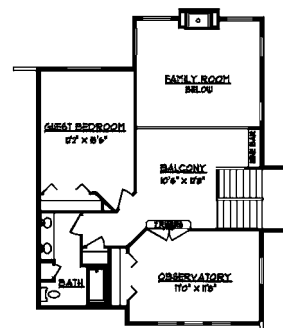

jobs and building sun decks. In 1991, he built his first custom home and has continued to build beautiful, quality homes for many more families throughout the Tri-Cities. He attributes his success to his 31 years of experience, hard work, attention to detail and the pride he puts into everything he does.
