The Buchanan design is one of our more popular designs, as well as one of the most versatile. Each home is customized to owner's individual style. The elegance and beauty of this home shine throughout. The grand entry invites you into an open foyer, dramatic ceilings and architecture. The master suite comforts you with a bayed sitting area and see-through fireplace into the bath. The kitchen, with its granite countertops, wine cellar and alternating height cabinetry, has everything one could desire. Full built-in entertainment center in the family room and elaborate details throughout the home show how dedicated Ron and Leila Bowden are at taking every effort to make your dream home come true.
