This 2,457 square-foot luxury rambler is completely wheel-chair accessible and a must-see for all lifestyles. It offers exceptional comfort and style from the dramatic entry with 13-foot faux painted columns to the covered patio located off the great room. The stylish kitchen features tile and granite and includes a writing desk for the homeowner's convenience. The stars of the master suite are the his and hers vanities and comfy sitting room. The other two bedrooms share a Jack & Jill bath with pocket doors. The oversized garage has extra room for recreational equipment and the laundry room, too, is extra large. Don't miss this unique home—designed for all lifestyles.
